

5' Sticky Restriction Site

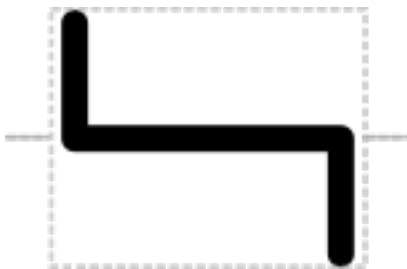

Associated SO term(s)

SO:0001975 (5' Sticky Restriction Site)

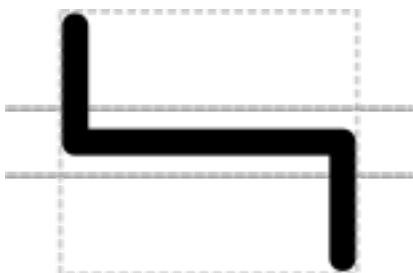

SO:0001976 (3' Sticky Restriction Site)

Recommended Glyph and Alternates

The 5' sticky restriction site glyph is an image of the lines along which two strands of DNA will be cut into 5' sticky ends. Vertical position with respect to the backbone is in a break in a single backbone:

and between strands of a double backbone:

Prototypical Example

EcoRI restriction site.

Notes

The complementary 3' Sticky Restriction Site glyph is a reflection of the 5' Sticky Restriction Site.
